## OUR TRADING POLICY

The Argos prices shown in this catalogue are generally compared with Recommended or Suggested Retail prices provided by our suppliers. Prices stated in this catalogue were established during May 1987 and already include VAT. However, in the event of changes in the VAT rate, or for any other reason beyond our control, we may have to make adjustments, so please check the Reference Catalogue in your Argos Store. All sizes, weights and capacities are approximate. Some descriptions may vary if a supplier has changed or altered their specifications after the catalogue has been printed. This catalogue, effective from 3 August 1987, supersedes all previous catalogues or brochures and remains in effect until further notice. Information is compiled with all possible care, but the publishers do not hold themselves responsible for errors or omissions.

### ALTERNATIVES

We will try to avoid disappointment on occasions when illustrated goods are not available by offering items of similar specification and value to your original choice.

Every effort is made to ensure that each item which appears in this catalogue is both safe and of good quality. All products included in the Argos catalogue comply with the appropriate Statutory Safety Regulations, and where considered necessary the relevant British Standards. Our suppliers adopt a policy of continuous improvement. Hence there may be during the life of the catalogue, minor variations in models, specifications and colours.

All quartz watches are dependent on batteries for their power source. Accordingly, customers returning watches with expired batteries will be charged for the fitting of replacements.

Watches that are designated splash proof are suitable for wearing whilst water is being splashed but NOT under any pressure ie swimming and showering.

CAR COMBINATIONS. There are two different standard sizes of car combination now generally available and these differ in size and method of fitting. DIN E - latest standard design to easily fit in almost all cars made since approximately 1983. Whilst DIN E can be fitted to most ordinary cars some trimming of the dashboard aperture may be necessary to accept the greater height. DIN D - slightly smaller than DIN E and will fit almost every model of car but may require simple adaptor plate obtainable from car accessory stores on post 1983 cars. If in doubt refer to vehicle specification manual or vehicle manufacturer.

TELECOMMUNICATIONS FOR TODAY

**AUDIOLINE**

APPROVED for use  
with telecommunications systems  
run by British Telecom. Conditions  
in accordance with the conditions  
of the agreement for sale.

Now you can choose telephone products in the same way as you choose all your other household items. You buy your telephones outright and you only pay rental on the exchange line.

All Argos telephones are fully approved for use with British Telecom systems. They plug straight into the new style B.T. jack-socket.

What if you don't have the new style British Telecom jack-socket? Simply telephone your local B.T. sales office for information on how they can convert your existing connection point.

The number of telephones you can connect to a line is determined by the "Ring Equivalent Number" (REN) of each telephone you wish to connect. The maximum REN for a B.T. line is 4. This means for example, that a maximum of 4 telephones each with a REN of 1 could be connected to the same line.

Remember, when you buy your phone, you only pay rental on the exchange line.

# Argos Superstore

Welcome to the additional range of specially selected merchandise now available in the new Argos Superstores. Argos Superstores carry the existing range of merchandise which you can buy at any normal Argos store, plus the magnificent new range contained in the following section of this catalogue.

## IT'S TWO CATALOGUES IN ONE

The normal Argos range can be found from pages 4 - 330, whilst the *additional* Superstore range is contained within pages 332 - 531.

For ease of reference we would recommend you look at pages 532 - 533 where you will find a complete index covering the whole catalogue.

## IT'S FIVE STORES IN ONE

There's never been an Argos like it - as you'll see from the moment you walk through the door.

The store is divided into 5 separate departments: electrical goods, jewellery, gifts, a really huge selection of sports and leisure equipment, and a general section where you'll find everything from toys to furniture.

## ALL THE HELP YOU NEED

In the new Argos Superstore departments you'll find friendly, fully trained sales assistants. They are there to help so you won't be pressured: just ask when you need their assistance.

In addition, each Superstore has a trained technician on hand to offer technical assistance and advice on all products.

## SEE WHAT YOU'RE BUYING

Nearly everything in the Superstore catalogue is on display in the store, so now you have the best of both worlds; you can enjoy the luxury and convenience of choosing at home, and the freedom to browse around the store and see what you're buying.
